

## Veterinary Pathologist (m/f/d)

Our Bioscience Research Division works on innovative and sustainable solutions for our customers in sectors, such as the agricultural sector or food industry. Our goal is to improve the quality of life and protect the environment through bioscience. Our creative and diverse team embodies mutual respect and develops market-driven innovations, which make our customers successful.

### RESPONSIBILITIES

Our Pathology team focuses on the whole pathology technique from necropsy to histopathological assessment of tissues from animal studies.

- o You are the pathologist for all types of mechanistic and regulatory studies.
- o For that, you ensure scientific evaluation and interpretation of pathology data by concurrent adherence to international regulatory guidelines, INHAND nomenclature, GLP as well as ISO principles.
- o You can bring in your scientific and technical expertise in immunohistochemistry techniques, digital pathology and associated molecular pathology applications.
- o Moreover, you have the chance to develop as well as establish new methods and contribute to publications and communication whenever possible.
- o You supervise necropsies and perform histopathological examinations on a wide variety of laboratory species.

### BENEFITS

- o A secure work environment because your health, safety and wellbeing is always our top priority.
- o Your contribution to a sustainable future because sustainability lies at the heart of everything we do and is a driver of growth.
- o Flexible work arrangements so that you can balance your working life and private life.
- o Onboarding to help you settle in quickly, ensuring you are part of the BASF team from day one.
- o Health and wellbeing programs to help you achieve better health and work-life balance.
